

Large Robot Hose Package

Large Robot Hose Package

The hose packages will simplify the installation of extra cabling for weld dressing as well as material handling applications. The spring loaded attachment on the upper arm allows the robot to move freely and with no force to the application cabling. The design of the hose package has a well proven technology and gives your cabling a longer lifetime. The hose package includes all necessary bolts and brackets for your ABB robot.

Advantages:

- No tension on application cabling
- Pre designed and function tested
- Easy to install
- Proven technology
